Activation Trellis

IP Product ID: IPTR100015

Interactive Play

Interactive Lazy River

Alternate colors and theming available

Water Effects + Play Features

- A trellis spanning the lazy river allows guests floating in the river to activate certain water features by hitting the hanging activation devices. The output can vary, to be sprayers on the bank or depth charges in the river, creating a battle zone.

Water Feature Specifications

Details	
Dimensions	220" x 13-1/2" x 96"
Water Requirements	N/A
